

“Complicates”

For people who talk so well
Shouldn't we have said something by now
The chance he gave me wasn't even fair
So he may not know I still care

But it's just enough It's just enough

Seemed mutual reading all the signs
And I believed him when he said he needed time
Time didn't seem to matter in the end
So I'll never know what he intended

But it's just enough He's just enough

I can't explain what it is about him
That always resonates
If I were deaf and blind I'd still understand him
Oh how he complicates
Oh how he complicates

Worth the wait, he is worth the wait
But I won't hold on if it's too late
He'd be lucky to have what I can give
And I'd be lucky just to have him

Am I enough I have to be enough

I can't explain what it is about him
That always resonates
If I were deaf and blind I'd still understand him
Oh how he complicates
Oh how he complicates

One day I won't be so happy to see him
Won't want him to hold me
All I think now is that I yearn to be with him
Be with him

And that's just enough
It's just enough
Let it be enough
He's just enough
He's more than enough

I can't explain what it is about him
That always resonates
If I were deaf and blind I'd still understand him
Oh how he complicates everything
Oh how he complicates
Oh how he complicates
